

**REQUEST FOR QUALIFICATIONS
FOR
OPERATION AND MAINTENANCE SERVICES
FOR THE GREATER NORTHEAST HOUSTON SERVICE AREA
WATER AND WASTEWATER UTILITIES AND FACILITIES**

**CITY OF HOUSTON
DEPARTMENT OF PUBLIC WORKS AND ENGINEERING**

1. PURPOSE:

1.1. The Public Works and Engineering Department (PWE) invites the submittal of Statements of Qualifications (SOQs) from firms interested in providing operations and maintenance services for the Greater Northeast Houston Service Area (GNEHSA) Water and Wastewater Utilities and Facilities. The Greater Northeast Houston Service Area (GNEHSA) encompasses the service areas located throughout Kingwood, Forest Cove, Harris County MUD No. 48, Harris County MUD No. 415, Harris County MUD 450, Harris County MUD No. 499, Montgomery County MUD No. 58, Lake Houston, Belleau Wood, District 73, District 82, and Plantation Hills. The goal of this Request for Qualifications (RFQ) is to identify and prequalify or short list Service Providers having demonstrated experience and financial capability to effectively and efficiently assume the responsibilities outlined herein.

2. BACKGROUND INFORMATION:

- 2.1. The firms will provide a description of all services necessary to transition from the current service provider (if applicable) and to operate and maintain all drinking water production and wastewater treatment facilities and utilities in compliance with all applicable rules, regulations and City of Houston standards, as outlined in this Statement of Qualifications.
- 2.2. Prospective Service Providers are invited to submit a Statement of Qualifications to the City of Houston, Texas (City) for providing full-service operation and maintenance services for the Greater Northeast Houston Service Area Water and Wastewater Utilities and Facilities.
- 2.3. This Request for Qualifications (RFQ) has been issued by the City to provide firms with information, guidelines, and rules to prepare and submit a Statement of Qualification which must satisfy all criteria established in this RFQ to qualify for consideration.
- 2.4. The title of the work described in the RFQ is "Operation and Maintenance Services for the Greater Northeast Houston Service Area Water and Wastewater Utilities and Facilities".
- 2.5. It is planned that pre-qualified firms will be asked to provide a cost proposal for operation and maintenance of the Greater Northeast Houston Service Area Water and Wastewater Utilities and Facilities for a period of three (3) consecutive years, with two one-year options for extensions, commencing in August 2015. Pre-qualified firms will receive a copy of the proposed project contract and technical requirements to be used in preparation of their cost proposals.

3. NOTICE TO RESPONDENTS:

- 3.1. Please review the Scope of Work and Qualification Requirements. If you believe that your firm meets the minimum requirements as outlined in the Scope of Work and Qualification Requirements, please submit your response to Jun Chang P.E., via the following address no later than 4:00 p.m. on Wednesday, July 16, 2014.

Jun Chang, P.E., D.WRE
City of Houston, Department of Public Works and Engineering
611 Walker, 25 Floor
Houston, TX 77002

- 3.2. If a Respondent discovers any ambiguity, inconsistency, or error in the RFQ, the respondent shall be required to seek an interpretation in writing as described in the following paragraph before submitting his proposal or otherwise shall be prohibited from taking advantage of such ambiguity or inconsistency. Verbal discussions and answers are not binding.
- 3.3. There will be no pre-qualification conference. Prospective Respondents needing additional information/clarification to this RFQ are requested to e-mail questions to SADWWOps@houstontx.gov. The deadline for submitting questions is July 02, 2014. All relevant questions will be answered via letter of clarification to this RFQ and posted on the City's e-bidding website.
- 3.4. Written SOQs, other submissions, correspondence, and all records made thereof, as well as negotiations conducted pursuant to this RFQ, shall be open and public after award of the Contract, in compliance with Texas law governing public records and meetings. Respondents acknowledge that all information contained within Proposals submitted in response to this RFQ is part of the public domain as defined by the State of Texas Open Records Law. No information shall be labeled "Confidential" unless exempted under said law.
- 3.5. Respondents shall comply with City Ordinance 2013-0428, Chapter 15, Article V, City of Houston Code of Ordinances, as amended, and City of Houston Office of Business Opportunity Minority, Women, and Small Business Enterprise (MWSBE) Procedures. The selected respondent will be required to comply with provisions of the City's Equal Employment Opportunity Ordinance and to make good faith efforts to achieve an M/WBE participation goal of at least 14 percent of the total value of the Contract (i.e., Basic Services plus Additional Services).
- 3.6. Each proposer must be thoroughly familiar with the scope of work and performance requirements in the RFQ. Failure to do so will not relieve the

selected Service Provider of his obligation to complete the work described in the RFQ in conformance with specified performance requirements.

3.7. Proposals submitted early may be modified or withdrawn by written notice to Jun Chang, P.E., D.WRE at the place and prior to the time designated for receipt of Proposals. Oral, telephonic, facsimile, or telegraphic modification of Proposals will not receive consideration. Withdrawn Proposals may be resubmitted up to the time designated for receipt of Proposals.

4. RESERVATION OF RIGHTS:

- 4.1. City has the right to not request proposals from providers if it so chooses.
- 4.2. All proposals must conform to requirements outlined herein. The City reserves the option to request additional information from selected candidates.
- 4.3. The City reserves the right to select the respondent determined to be most responsive and responsible, and in the judgment of the City, that best meets its needs for the specified services.

5. STATEMENT OF QUALIFICATION SUBMITTAL:

- 5.1. The SOQ shall identify all terms and conditions anticipated with the types of services envisioned as part of this project. At a minimum, the SOQ shall contain the following items (10-page maximum for each section unless otherwise specified):
 - 5.1.1. Executive Summary;
 - 5.1.2. Letters and Forms;
 - 5.1.3. Prior Similar Project Experience;
 - 5.1.4. Understanding of the Project and Approach;
 - 5.1.5. Service Provider Information;
 - 5.1.6. References for Relevant Type of Work; and

5.1.7. Documentation of Certifications;

5.2. One original shall be submitted on 8½ x 11-inch sheets in one loose-leaf binder with original signatures, labeled section dividers and 15 PDF copies on separate CDs. Text shall be double-spaced, and pages shall be single-sided use type font Arial size 11. Respondents must respond concisely to each of the requirements or questions presented in the following subsections. Each requirement or question must be responded to separately, with the requirement or question preceding each response.

5.3. Each SOQ shall be organized in the following order:

5.3.1. Outside Cover of the binder and/or first page: Shall contain the name of the SOQ ("Statement of Qualifications for the Greater Northeast Houston Service Area Water and Wastewater Utilities and Facilities), the name of the respondent, and the submittal date. Label the cover and first page of the binder, with original documents in it, "ORIGINAL" on the cover.

5.3.2. Table of Contents

5.3.3. Section 1: Divider (Executive Summary)

5.3.4. Section 2: Divider (Letters and Forms):

5.3.4.1. Transmittal Letter: The first page following the divider shall be a one-page letter transmitting the SOQ to Jun Chang P.E., D.WRE, Public Works and Engineering Department. The transmittal letter shall say that the signer of the document is authorized by the Respondent to sign the document. At least one copy of the transmittal letter shall contain the original signature of a partner, principal, or officer of respondent.

5.3.4.2. M/WBE Letter(s): Following the transmittal letter shall be a one-page letter from each City-certified M/WBE firm included on the team, indicating the M/WBE firm's desire to be included on the team and indicating a general statement of the scope of services the M/WBE firm will perform if Respondent is selected. **NOTE:**

The scope of service proposed by the M/WBE firm must match the service for which the M/WBE firm is certified by City. At least one copy of each of this letter shall contain the original signature of a partner, principal or officer of the M/WBE firm.

5.3.4.3. Copy of Conflict of Interest Questionnaire: (Texas Ethics Commission Form CIQ found at www.ethics.state.tx.us/forms/CIQ.pdf.) Local Government Code Chapter 176 requires firms seeking to do business with the City to file a Conflict of Interest Questionnaire with the City.

5.3.5. Section 3: Divider (Prior Similar Project Experience): The respondent shall select a total of three projects: To highlight as best representing the firm's experience and provide a briefing sheet for each that shall be one-page and should contain information, which shows the capability of the firm and Project Manager to provide the range of services that are required by this project. The work described must have been performed within the past ten years. Minimally, each brief shall contain:

5.3.5.1. Project name and location;

5.3.5.2. Year operations were started, if operations are still under contract and brief explanation regarding steps respondent's team members took to maintain operations contract;

5.3.5.3. Short description of services provided for each project listed. The description should at minimum give an overview of the project; and

5.3.5.4. How this operational experience relates to this project.

5.3.6. Section 4: Divider (Understanding of the Project and Approach): The Respondent will provide no more than three pages of narrative that describes:

5.3.6.1. Firm's understanding of the City's needs and Firm's approach to this project;

- 5.3.6.2. Firm's knowledge of the elements involved in this project, and approach to be taken for the services requested. Elements of the project such as assessment of existing conditions, timely scheduling, cost-effectiveness, energy savings and operational efficiency, other environmental issues, quality control, agency regulations, operation, maintenance, and security may be included;
 - 5.3.6.3. Firm's systems and processes for insuring quality and timely performance on projects; and
 - 5.3.6.4. Firm's track record of meeting deadlines and working with a budget.
- 5.3.7. Section 5: Divider (Service Provider Information): The Respondent must provide the following information in a clear and comprehensive manner. Failure to do so may result in disqualification.
- 5.3.7.1. Provide the full legal name, tax identification number, where and when entity was organized, and main office address of the entity that proposes to enter into the Agreement with the City. If the Respondent is a consortium, partnership or any other form of joint venture, provide a summary of the key terms of the executed agreement, including percentages of ownership, roles of various parties, and execution date. Respondents must also identify a sole point of contact and include the following information: individual's name, title, address, telephone and fax numbers, and e-mail address.
 - 5.3.7.2. Provide the names of each Guarantor. Identify when the entity and its guarantor were organized and, if a corporation, where incorporated.
 - 5.3.7.3. State how many years the entity has been engaged in providing water and wastewater system operation and maintenance services under its current name.

5.3.7.4. Provide a listing of all full-service water and/or wastewater system operation, maintenance and management agreements to which the respondent and its guarantor are currently a party. Full service operation, maintenance, and management means, at a minimum, providing all labor and management, paying routine operation and maintenance expenses, guaranteeing a maximum cost for routine services, and guaranteeing compliance with applicable regulatory requirements. For each current agreement, provide the following information:

5.3.7.4.1. Gross annual amount of each contract;

5.3.7.4.2. Contract start date;

5.3.7.4.3. Anticipated completion date;

5.3.7.4.4. Name, address, contact person, and telephone number of the owner; and

5.3.7.4.5. Size and type of facility.

5.3.7.5. Identify the subcontractors and suppliers that the prospective Service Provider intends to use to perform the work described in the RFQ. All subcontractors and suppliers are subject to approval by the Director.

5.3.8. Section 6: Divider (References for Relevant Type of Work): The Respondent must provide a name, phone number and e-mail address for each reference for projects involving similar work.

5.3.9. Section 7: Divider (Documentation of Certifications): The Respondent must provide proof of certification of operators.

6. QUALIFICATION REQUIREMENTS:

- 6.1. The City will qualify Respondents based upon their firm's experience, background and technical expertise in the subject area. Respondents must prove to the satisfaction of the City that they meet all the qualification requirements described herein. Qualification is subject to the City's reservation of rights set forth in Section 1.3 of the RFQ.
- 6.2. Each qualified Respondent shall hold a valid certificate of registration as a public water system operations company in accordance with 30 TAC §325.28(a). Additionally, each qualified Respondent shall hold a valid certificate of registration as a wastewater system operations company in accordance with 30 TAC §325.126(a).
- 6.3. The prospective Service Provider must demonstrate that it has successfully provided full-service management, operation, and maintenance of at least one 5 MGD or larger WWTP, utilizing the activated sludge process, in the United States for at least 3 years during the past 10 years.
- 6.4. The prospective Service Provider must demonstrate that it has successfully provided full-service management, operation, and maintenance of at least one groundwater treatment and distribution system, serving more than 25,000 people, in the United States for at least 3 years during the past 10 years.
- 6.5. The proposed guarantor must satisfy one of the following criteria in order to demonstrate its financial stability and capability to perform the required services. Respondents are hereby notified that the City reserves the right to require a different guarantor.
 - 6.5.1. A current investment grade credit rating on long-term debt, as determined by either Standard & Poor's Rating Services and/or Moody's Investor's Services, and the capability to obtain a performance bond of at least \$5 million dollars.
 - 6.5.2. Capability to obtain a performance bond of at least \$5 million and cash or cash equivalents of at least \$5 million or an authorized letter of credit or line of credit of the same amount.

- 6.5.3. Capability to obtain a performance bond of at least \$10 million or an authorized letter of credit or line of credit of the same amount.
- 6.6. The prospective Service Provider must commit to provide a project manager with at least 10 years of progressive experience in contract operation and maintenance of municipal water and/or wastewater systems including at least one project with a contract value greater than \$2 million annually.
- 6.7. The prospective Service Provider must commit to provide a Class B certified groundwater operator who will bear overall responsibility for operation and maintenance of the Water Systems and sign all reports or certifications submitted to regulatory agencies.
- 6.8. All certified groundwater operators, proposed by the Service Provider, shall be subject to be approved by the Director. Certified operators may operate multiple systems so long as they comply with requirements of 30 TAC §290.
- 6.9. Any water system operator, except an operator-in-training, shall possess a valid certificate of competency as a public water system operator in accordance with 30 TAC §290.46. All duties performed by an operator-in-training shall be performed in the presence of a certified operator.
- 6.10. A certified groundwater treatment operator may perform all duties relating to the operation and maintenance of drinking water production and water distribution systems.
- 6.11. The prospective Service Provider must commit to provide a Class A certified wastewater treatment facility operator who will bear overall responsibility for operation and maintenance of the Wastewater Systems and sign all reports or certifications submitted to regulatory agencies.
- 6.12. Each Wastewater Collection System Operator, except an operator-in-training, shall hold a valid certificate of competency in accordance with applicable TCEQ requirements. An operator-in-training must work in the presence of a certified operator.

7. SCOPE OF WORK:

- 7.1. The purpose of this project is to cost effectively manage operation and maintenance of the Greater Northeast Houston Service Area Water and Wastewater Utilities and Facilities. A list of water and wastewater facilities within the GNEHSA is included in Appendix "A" and a map of GNEHSA is shown in Appendix "B".

8. SELECTION CRITERIA:

- 8.1. The City is seeking highly qualified Contract Operations and Maintenance firms to manage its Drinking Water Production and Wastewater Treatment facilities and utilities located in Northeastern Harris County (See Map).
- 8.2. A selection Committee composed of representatives from PWE will review the SOQs. The criteria used to evaluate the RFQ responses will include the following:
 - 8.2.1. Completeness of submittal response: SOQ follows the prescribed format and contains all information requested in RFQ (maximum 30 points);
 - 8.2.2. Experience: in similar or relevant projects by firm (maximum 30 points). In order to receive full points, a responding firm must have at least ten performance contracting references of similar size, scope or focus;
 - 8.2.3. Business qualifications: project track record of firm, number of years in business or provider of the services being offered for this project (maximum 15 points);
 - 8.2.4. Financial qualifications: the long-term financial viability of the entity proposed to provide technical and financial guarantees; must be demonstrated by audited financial statements including income statements, balance sheets and statements of change for two most recent completed fiscal years (maximum 15 points); and
 - 8.2.5. Project management qualifications: ability to adhere to schedules and to timely complete all phases of the contracting process. Extent to which Respondent demonstrates understanding and sound approach to the operations and maintenance requirement of the Project, including project-

specific risks associated with operations and maintenance (maximum 10 points).
