1.3 INDEMNIFICATION-SUBCONTRACTOR'S INDEMNITY

1.3.1 CONTRACTOR SHALL REQUIRE ALL OF ITS SUBCONTRACTORS (AND THEIR SUBCONTRACTORS) TO RELEASE AND INDEMNIFY THE CITY TO THE SAME EXTENT AND IN SUBSTANTIALLY THE SAME FORM AS ITS RELEASE AND INDEMNITY TO THE CITY.

If the City does not provide this notice within the 30-day period, it does not waive any right to indemnification except to the extent that Prime Contractor/Supplier is prejudiced, suffers loss, or incurs expense because of the delay.

2.3 Defense of Claims.

2.3.1 Assumption of Defense. Prime Contractor may assume the defense of the claim at its own expense with counsel chosen by it that is reasonably satisfactory to the City. If Prime Contractor does not assume the defense, the City shall assume and control the defense, and all defense expenses constitute an indemnification loss.

2.3.2 Continued Participation. If Prime Contractor elects to defend the claim, the City may retain separate counsel to participate in (but not control) the defense and to participate in (but not control) any settlement negotiations. Prime Contractor may settle the claim without the consent or agreement of the City, unless it (i) would result in injunctive relief or other equitable remedies or otherwise require the City to comply with restrictions or limitations that adversely affect the City, (ii) would require the City to pay amounts that Prime Contractor does not fund in full, (iii) would not result in the City's full and complete release from all liability to the plaintiffs or claimants who are parties to or otherwise bound by the settlement.

# SPECIFICATIONS / SCOPE OF WORK

## SOLICITATION NO. S46- T25182

### 1.0 PROCUREMENT OVERVIEW

- 1.1 The City of Houston's Information Technology Services (HITS) and General Services Department (GSD) are seeking to implement of a Computer Power and Energy Management solution to remotely manage the power consumption of the personal computers used throughout the City. The goal is to reduce and eliminate computer energy waste without affecting productivity.

### 2.0 BACKGROUND AND GOALS

- 2.1 Currently, the City of Houston does not have strategic power management policy or coordinated managed software solution to manage power consumption of personal computer. The power saving settings available on most computers must be applied individually, provide no centralized reporting ability, are not highly customizable, and are commonly overridden or disabled by the users. The goal of this solution is to provide centralized control over the power management features of each PC within a computer network with a focus of eliminating computer energy waste without affecting productivity, reduce greenhouse gases, and create operational saving through intelligent power management. The goal is a reduction of 50% of energy used by computers attached to the network.

### 3.0 SCOPE OF SERVICES

- 3.1 The offer proposed solution must meet the minimum requirements outlined below.

#### 3.2 Product Description

- 3.2.1 The offeror must be able to provide a PC power management solution that can remotely manage the power consumption of the personal computer in the City of Houston IT enterprise, with a minimum target of 50% reduction in energy use by computers attached to the network.

#### 3.4 Compatibility with standard Microsoft infrastructures

- 3.4.1 The offeror product must be compatible with The City of Houston Microsoft infrastructure; Active Directory with Group Policy and Microsoft System Center Configuration Management. Saving energy should not burden your users nor impede your business. Your company exists for an important reason and your power reduction program must not interfere with getting that job done. In order to avoid harming productivity, you have several key issues to work through: Be smart about when PCs are shut down and when they are turned on each workgroup may have different usage patterns. Getting this right is crucial to avoiding help desk calls whilst maximizing energy savings. Avoid losing important data or crashing critical applications before putting PCs into low power modes, some applications may need to be gracefully terminated while others may be just too important to interrupt. In the latter case, these PCs may need to be exempted from power management.

#### 3.5 Wake-on-LAN

- 3.5.1 The offeror solution must have Wake on LAN Capability. Saving energy should not disrupt PC maintenance. Saving energy by turning off PCs cannot be asserted at the cost of vital IT services that maintain the health, reliability, and security of your PCs. Ensure all target PCs are awake for scheduled off-hours IT maintenance as defined by any individual department. Example: wake up all machines for patch Tuesday from 2 AM – 5 AM. Allow on-demand power state control of targeted PCs for unscheduled activity ad hoc updates dictate that PCs be woken up and/or rebooted on-demand (for example, installing anti-virus updates to head off a new, rapidly spreading threat). Saving energy should add as little overhead as possible to IT duties. The key objective of IT is to support core business objectives. Thus, PC power management should have 100% uptime, work seamlessly and cannot burden IT with additional administrative overhead and added help desk calls. Automatically assign comprehensive policies to a dynamic set of machines – PCs are constantly moved, reassigned and repurposed. The PC's power policy should change automatically and match the needs of the associated workgroup, their business applications and IT maintenance activity. Make sure your solution offers a reliable, zero-overhead alternative. The solution should support power options for Windows 7.x and Windows 8.x

**SPECIFICATIONS / SCOPE OF WORK**

3.8.1 The offeror solution must be capable of deferring a PC shutdown based on historical trends and end user denial.

### I. Pay or Play Program Elements

#### A. Purpose

Authorized by Ordinance 2007-534 and Executive Order 1-7, the purpose of the Pay or Play Program is (1) to create a more level playing field among competing contractors so that those who provide health benefits to their employees are not disadvantaged in the bidding process; and 2) to recognize and account for the fact that there are costs associated with the health care of the uninsured.

#### B. Program Elements

1. Covered Contracts: Contracts covered by the program are those that are advertised after July 1, 2007, which are valued at or above \$100,000 and are not primarily for the procurement of property, goods, supplies or equipment.
  2. Covered employees: This program applies to employees of a covered Contractor or Subcontractor, including Contract labor, who are over age 18, work at least 30 hours per week and work any amount of time under a covered city Contract or Subcontract.
  3. Compliance with the program means that the Contractor either:
    - “Pays” by contributing \$1.00 per covered employee per hour for work performed under the Contract with the City; or
    - “Plays” by offering health benefits to covered employees. Health benefits must meet or exceed the following standards:
      - The employer will contribute no less than \$150 per covered employee per month toward the total premium cost.
      - The employee contribution, if any amount, will be no greater than 50% of the total monthly premium cost.
  4. Subcontracts: The Prime Contractor is responsible for compliance on behalf of covered employees, including Contract labor, of subcontractors with subcontracts valued at or greater than \$200,000, if the Subcontract is not primarily for the procurement of property, goods, supplies or equipment. Subcontractor compliance includes submission of applicable reports and/or payments to the Prime, as well as maintenance of records.
1. Exemptions/Waivers: The City of Houston will award a Contract to a Contractor that neither Pays nor Plays only if the Contractor has received an approved waiver.
  2. Administration: Contractor performance in meeting Pay or Play program requirements will be managed by the contracting department. The Office of Affirmative Action and Contract Compliance will have administrative oversight of the program, including audit responsibilities.
