### **1.0 Purpose**

The City of Houston estimates that up to 200,000 structures may have been damaged by Hurricane Harvey. The selected contractor will be called upon to help collect data to provide a complete assessment of the damage and provide the City with tools to analyze the data. The City desires to contract with an entity with a proven track record of similar work in post-disaster efforts.

### **2.0 Scope of Work**

Once these Unmet Recovery Needs are identified and quantified, the selected Consultant will work with the City to develop a methodology for prioritizing impacted households, businesses, and other entities based on a variety of factors and indicators to determine prioritization for receipt of and type of assistance. The selected Consultant will also, as directed by City officials, transmit data to non-profit organizations to facilitate connecting the organizations with appropriate impacted households, businesses, and entities.
