PART I: GENERAL INFORMATION

Introduction

The City of Houston (City) is the fourth largest city in the United States and is composed of 23 departments with multiple physical locations throughout the geographical boundaries of the City. The City has approximately 23,000 employees with approximately 500 employees involved in the procurement and/or contracting process. Agreements where the City must pay in excess of \$50,000 are routed to City Council for approval. The annual volume of agreements/contracts and purchase orders issued by the City in the last five years has ranged from 19,000 to 23,000.

The Community Development Block Program (CDBG) program, funded by the U.S. Department of Housing and Urban Development (HUD), provides annual grants on a formula basis to entitlement cities and counties. As expressed in the Federal Housing and Community Development Act, the primary objective of the CDBG program is “the development of viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low-and moderate-income (LMI).” Activities funded must meet the general goals and eligible activity criteria of the CDBG program.

All CDBG funded activities must meet at least one of the three National Objectives defined in the authorizing statute of the CDBG program:

- Benefiting Low- and Moderate-Income Persons (LMI) (80% of Area Median Income)
- Preventing or Eliminating Slum or Blight (SB)
- Meeting an Urgent Need (UN) by alleviating emergency conditions (such as providing assistance to households making in excess of 80 percent of the Area Median Income (AMI))

All activities funded through the City of Houston CDBG Public Services Program are required to benefit a majority of low- and moderate-income persons earning less than 80% Area median Income (AMI). Projects that fail to meet the applicable eligibility criteria will NOT be considered for funding.

The City of Houston through HCD serves as administrator of the formula grant-funded CDBG Program. The City has funds available from the HUD through its CDBG program for eligible public services activities benefiting low-moderate income persons. Eligible persons must reside within the City of Houston’s City Limits. Applicants may be located outside the city limits, but their proposed program and service area must benefit City of Houston residents.

Funding

The amount of funding available for the Public Services NOFA is approximately \$4,500,000.00. In addition to CDBG Public Services funding, HCD may include Emergency Solutions Grants (ESG), Homeless Housing and Services Program (HHSP), Tax Increment Reinvestment Zone (TIRZ) or any other available funding HCD manages that can support eligible public service activities.

Environmental Review

An environmental review is the process of reviewing a project and its potential environmental impacts to determine whether it meets federal, state, and local environmental standards. The environmental review process is required for all HUD-assisted projects to ensure that the proposed project does not negatively impact the surrounding environment and that the property site itself will not have an adverse environmental or health effect on end users.

All properties assisted under this Program will be subject to an Environmental Review by the City prior to rehab, land acquisition, and/or new construction. CHDO Developers will be required to submit the project site address, and parcel identification number, which the City will conduct the environmental review in compliance with [24 CFR Part 58](#). If the project passes the Environmental Review, the city will issue a Notice to Proceed, and the Developer may move forward with the approved land acquisition and new construction activity.

A commitment of funds can occur only upon satisfactory completion of an environmental review to determine whether the project meets federal, state, and local environmental standards, and receipt by the City of a release of funds from HUD under 24 CFR Part 58.35(a) or 58.36. Developers must agree that the provision of any funds to their project(s) is conditioned on the HCD's determination to proceed with, modify or cancel the project based on the results of a subsequent environmental review. Developer's funding may be required to contract for environmental consulting services to provide the information required, which shall be an eligible project soft cost. In addition, the following regulations are applicable:

- Per 24 CFR 58.5(i)(2)(i), it is HUD policy that all properties that are being proposed for use in HUD programs be free of hazardous materials, contamination, toxic chemicals and gases, and radioactive substances, where a hazard could affect the health and safety of occupants or conflict with the intended utilization of the property.
- Per 58.5(i)(2)(ii) the environmental review of Multifamily housing with five or more dwelling units (including leasing), or non-residential property, must include the evaluation of previous uses of the site or other evidence of contamination on or near the site, to ensure that the occupants of proposed sites are not adversely affected by any of the hazards listed in paragraph (i)(2)(i) of this section.
- Lots to be acquired for selection cannot and will not undergo any development or other activity that constitutes a choice limiting action per 24 CFR 58.22, regardless of whether HUD or non-HUD funds are used. No HUD funds can or will be used prior to the issuance of the Release of Funds/Authority to Use Grant Funds (AUGF) and all necessary site-specific environmental review and clearance as required by 24 CFR 58.

- Regulations found at 24 CFR 58 also govern sound mitigation requirements if noise levels in a Normally Unacceptable Noise Zone (NUNZ, 65-75 decibels (dB)) or Unacceptable Noise Zone (UNZ, 75+ dB), and regulations found at 24 CFR 55 govern flood mitigation for any existing properties that reside in the 100-year floodplain.
- Hazardous materials described at 58.5(i)(2)(i) cover all forms of contamination, including but not limited to lead and asbestos that may be found in older buildings, particularly those built prior to 1978.

An ASTM E1527-13 Phase I Environmental Site Assessment (ESA), under 6 months of age, must accompany projects involving acquisition (rehab and new construction) as well as all new construction projects (with or without acquisition).

Floodplain and Floodway Development

Floodway development is prohibited. Developments with improvements within 100-year floodplain will also be ineligible unless the applicant can demonstrate flood mitigation practices to avoid adverse impacts to residents. Sites not located within 100-year floodplain but reported flooding events within the past 10 years may be subject to these requirements.

Mitigation efforts to include Chapter 19 of the City's Code of Ordinances. Mitigation efforts may include, but not limited to, elevating building site out of the floodplain, elevated podium construction, restricting ground floor space for residential use, pier and beam foundations for single-family units, etc. Any mitigation efforts will be considered on a case-by-case basis by HCD. Applicants are advised to check property addresses against the most recent flood maps which can be accessed on Harris County Flood Control District website at www.hcfc.org.

Applicability Of OMB Circulars

Sub-recipient of CDBG funds must comply with the policies, guidelines, and requirements of 2 CFR 200, previously 24 CFR 84, which now codifies OMB Circular No. A-110; A-122; and A-133 as they relate to the acceptance and use of grant amounts by nonprofit organizations.

INSTRUCTIONS FOR CERTIFICATION

- 1) By signing this Agreement, Contractor, also sometimes referred to herein as a prospective primary participant, is providing the certification set out below.
- 2) The inability of a contractor to provide the certification required below will not necessarily result in denial of participation in the covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the City's determination whether to enter this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3) The certification in this clause is a material representation of fact upon which reliance was placed when the City determined to enter this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the City, the City may terminate this transaction for cause or default.
- 4) The prospective primary participant shall provide immediate written notice to the City if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.
- 9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause.
